## Education

B.A. Computer Science

05/2019 University of Colorado at Boulder

Dean's List

4 Consecutive Years

Undergraduate GPA of 3.946

4.00 In High school

Self Taught

Passion Projects

## PROFILE

Honest, kind, happy, self-motivated programmer with a strong background in math, community development, and cross cultural communication. Hoping to expand my human network in and outside of school, continuing my passions and figuring out what I want to do for my career. Seeking to improve my practical knowledge of computer science in different settings.

## WORK EXPERIENCE

### Course Manager/Teaching Assistant

08/2018- present

Worked with professors to provide a supportive course environment. Held weekly meetings with Course Assistants and Graduate Student Staffs. Held office hours to help students with course-related questions. Prepared weekly quizlets for students and grading rubrics for homework, practicums and exams. Wrote and re-wrote homework questions with professors.

### Web&Graphic Designer

06/2019 - present

CUI Independence (CUI)

Created customized website pages and designed graphs for posts based on the editors' needs. Maintained and updated CUI Website. Participated in weekly meetings. Created featured posts including interactive elements.
